

Kinder House Day Care

Vision Statement

Our vision for family child care is to promote the healthy growth and development of children and offer support for families by providing high quality, developmentally appropriate and flexible child care. An important part of this vision is for each Early Childhood Educator to become an advocate for children and family issues that promote and enhance the well-being of the children and families we work with as well as foster the growth and development of the surrounding community.

Firmly believing that “It takes an entire village to raise a child”, Kinder House Day Care will achieve this vision in cooperation with the families being served, a broad network of Early Childhood Educators and child advocacy groups, community organizations, and government agencies.

Mission Statement

To promote the healthy growth and development of children in family child care and the strengthening of their families and community through:

- * **Enhancing the quality of family child care.**
- * **Communicating a positive image and information about the immense benefits of Early Childhood Education to the broader Community through research and advocacy.**
- * **Reflecting the rich diversity of cultures and ethnicities in our Country.**
- * **Developing leadership and advocacy skills by providing opportunities for education, training, exposure and identifying ways to being proactive rather than reactive.**
- * **Insuring that Early Childhood Educators have adequate support by providing resources for information about child care regulations.**
- * **Incorporating the Early Childhood Association of Alberta “code of ethics” into every aspect of our work.**
- * **Coordinating with a broad range of community and social service agencies to support children and families.**
