

# Kinder House Day Care

## **Volunteers/ Work Experience Candidates**

At Kinder House, we welcome volunteers and work experience students who are interested in coming into the Center.

Currently, Kinder House is proudly partnering with TLC Edmonton – Training For Foreign Caregivers (ALIS Alberta). Volunteers are unpaid and have chosen to participate in our program as an extension of their training. Therefore, these individuals will not be included in child/staff ratios and will not be left alone to have sole responsibility of the supervision of the children within our program. Their main purpose is to shadow Child Care Staff and interact with the children. Police Information Checks including Vulnerable Sector Search and references from TLC will be required before a volunteer will be able to assist with the program.

All work experience students will undergo an interview before joining our program for the designated time required to fulfill their course.
